About QIS

QIS Academy, the training division of **Quest Innovative Solutions**, is a leading IT training institute based in Kochi, with branches across major cities in Kerala. With over **25 years of expertise**, we specialize in transforming technical graduates into industry-ready IT professionals through rigorous, hands-on training programs.

Your Transformation With Us !

Getting You Ready For The Industry !

- **Project-Based Learning** focused on real-world applications
- **Industry-Aligned Curriculum** co-designed with IT professionals
- **AI-Integrated Syllabus** with Generative AI tools and projects
- **24x7 Doubt Clarification Support** from trainers and mentors
- **Expert Mentorship** in both tech and soft skills
- **Interview-Focused Training** for placement success

Your Career Development With Us

- **Resume Rebuilding** with expert feedback
- **Interview Preparation & Soft Skills Grooming**
- **Mock Interview Sessions** with real-time feedback
- **100% Placement Assistance** with access to exclusive drives
- **Best Lab Facilities** and supportive learning environment

Intensive Technical Training

● ADVANCED C PROGRAMMING

- Introduction to C programming in Linux
- C Tokens
- Precedence and Associativity
- Escape sequence in C
- Functions in C
- Void pointer, Null pointer, Wild pointer
- Dangling pointer
- Function pointers & Callback function
- Structure, Union & enums
- Dynamic Memory Allocation
- Data segments in C
- Data Structures
- Linked List
- Binary Tree and Binary Search Tree
- Stack implementation
- Preprocessors & Macros
- Command Line Arguments
- File Handling
- Bitwise manipulation
- Time & Space Complexity

● ADVANCED C++ PROGRAMMING

- Object Oriented Programming
- Object & Class
- Constants/Literals
- Dynamic Memory Allocation
- Constructors & Destructors
- Structs
- Inheritance
- Polymorphism
- Abstraction
- Exceptions

● AUTOSAR

- Introduction to Autosar
- Base Software (BSW)
- Software Components
- Ports & Interfaces
- Compositions & Connectors
- Runnable & Events
- Application Software Components (ASW)
- Run Time Environment (RTE)_Autosar Methodology

● PYTHON PROGRAMMING & GUI DEVELOPMENT

- Introduction To Python
- Datatypes
- Comprehensions
- Python Functions
- Object Oriented Features
- File Handling
- GUI Development Tkinter
- Configuring peripherals with in Raspberry Pi

● MICROCONTROLLERS & MICROPROCESSORS

- PIC Microcontroller
- ARM7 TDMI LPC2148
- ARM CORTEX M4 STM32F446RE

● COMMUNICATION PROTOCOLS

- USART, SPI, I2C, CAN

● REAL WORLD INTERFACING

- HC05, ESP, AHT10, M95160, USB, OLED, PIR, MQ6, LDR

SINGLE BOARD COMPUTERS

- Raspberry Pi

● EMBEDDED AI WITH TINYML & EDGE AI

- TinyML Model Deployment Tools
- TensorFlow Lite, Edge Impulse
- Edge AI with Raspberry Pi
- Run pre-trained models on Raspberry Pi
- Smart Camera for Object Detection
- Motion based activity recognition

● RTOS - REAL TIME OPERATING SYSTEM

- FreeRTOS

● EMBEDDED NETWORKING

- TCP/IP & UDP Socket Programming
- Linux System Calls

● IOT - INTERNET OF THINGS

- ESP8266, ThingSpeak

● EMBEDDED LINUX & DEVICE DRIVERS

- Linux Internals
- System Programming
- Device Drivers

● VERSION CONTROL SYSTEMS

- Introduction to VCS
- GIT & Github

● ROBOTICS

● PCB DESIGNING

● INTERNSHIP PROJECT
